“CONOCO”- Coping with NO mobility during Corona Virus Times: Learning from each other

The European Association of Erasmus Coordinators (EAEC) is pleased to announce that the project “CONOCO-Coping with NO mobility during Corona Virus times: Learning from each other”, has been approved by the Cyprus National Agency and is funded by the European Commission under the Erasmus+ KA2. Duration, (October 2020 until May 2022).

Since Covid-19 emerged to a pandemic in 2020, it has compelled many governments around Europe to take extreme measures of lock down to an unimaginable degree until then. As a result, millions of Europeans were forced to stay home for an extended period. This new reality found most, unprepared to adapt their working, producing, creating, learning, teaching and living habits and be as productive and effective while staying at home.

Thus, CONOCO project aims to collect practices from the partner countries and beyond, on how the European employees-employers, educators-students, parents-grandparents, including people with disabilities, were coping with staying at home and also highlighting original, typical approaches that proved to be efficient and helped people's productivity and creativity.

INVITATION

We kindly invite you to answer a short questionnaire (10 minutes) regarding the lockdown period caused by the corona virus pandemic. Your participation will be greatly appreciated because the information gathered will form a collection of good- practices of how people cope with No- Mobility during the Covid-19 outbreak.

The questionnaire is addressed to everybody (from students to senior citizens). All responses will remain confidential and will be used according to the EU regulations.

EAEC is a partner in “ECOLHE - Empower Competences for Online Learning in HE”

The aim of ECOLHE is to examine the way in which the idea of E-learning, in the European HE Area, has been translated into practice, at national context by Academic Bodies.

ECOLHE is a research project that aims to create the best conditions for exchange of good practices in:

- teaching digital skills in HE
- developing a training course for teachers and tutors for improving online teaching in HE
- recognizing and validating teaching competences in HE for the teachers' professional development
- providing guidelines and recommendations for Academic Bodies

Education and Training Monitor

The Monitor offers suggestions for policy reforms that can make national education and training systems more responsive to societal and labour market needs.

It comprises a cross-country comparison and 27 in-depth country reports.
