RESEARCH & ARTICLES

ESN releases the biggest research report on the Impact of COVID-19 on student exchanges in Europe

In order to capture the experiences of students and trainees across Europe regarding the impact of COVID-19 on their mobility experience, the Erasmus Student Network (ESN) has written a research report on the topic.

How should students be admitted to Higher Education this year?

It is becoming increasingly clear that the Covid-19 pandemic is forcing us to change the way we do almost everything – including admission to higher education. What will happen this year? A Eurydice map on how the new coronavirus is affecting higher education institutions is included [in the article](#)

EUROPEAN PROGRAMMES IN ACTION

EAEC partner in Erasmus project: “HUMA@N”

Help us improve the teaching of Humanities in Higher Education. Is the use of digital technology (ICT) in “Humanities” at the appropriate level? We greatly appreciate your opinion! Give us your feedback by replying to a short survey [HERE](#)

EAEC is partner in “ASTRE - Automatic System for Tracking E-Learners”

The project ASTRE aims to develop a tracking system for MOOC learners. The tracking system will focus on the impact that the attendance of MOOC and the certification have had on the learner’s personal and professional competences, further education, career path, professional status, earnings etc.

If you work in MOOC or online training provision please give us your feedback through the survey [HERE](#)

EACG is partner in “UPGRADE - UP skillinG Refugees And aDult Educators”

UPGRADE is an Erasmus+ Key Action 2: Adult Education project, aiming at refugees and migrants in the EU in order to assist them through education and training to integrate in the EU society and labor market.

The project’s innovation and value lies in the fact that it does not merely seek to train trainers and refugees/migrants. The project goes beyond the training scheme as it incorporates the promotion of EU cultural diversity, access in OLS (Online Linguistic Support) tool and the utility of EU Skills Profile Tool.

EACG is partner in “METIS: Micro Electronics Training, Industry and Skills”

EACG is one of the partners in a 4-year KA2 project: Cooperation for innovation and the exchange of good practices - Sector Skills Alliances, with the title “METIS”.

Microelectronics are the brains of all modern services and products. With incredible processing power, they enable billions of computations per second and store vast data. Artificial Intelligence, smartphones, computers, cloud storage, automobiles, space travel and medical equipment all rely on microelectronics.

METIS’ key novelty is that for the first time an industry association serving the electronics supply chain, takes the lead to connect the worlds of VET and industry in Europe.

METIS embodies EU excellence in microelectronics, with 20 partners from 14 countries representing industry (Start-Ups, SMEs, Large Firms), national and EU industry associations, formal educational providers and regulatory bodies in the field of accreditation and certification.
