ERACON 2024 IN PORTUGAL

ERASMUS Congress and Exhibition - ERACON 2024 and CAREER-EU 2024 conference are planned to be hosted in Porto 25-28 June 2024. More details soon [here](#).

THE ERASMUS WITHOUT PAPER CHAMPIONS THE BENEFITS OF DIGITALIZATION FOR STUDENTS IN HE

The Erasmus Without Paper (EWP) Champions are higher education representatives who play a pivotal role in promoting the digitalisation of Erasmus+ administrative processes. They are part of the Erasmus Without Paper network, which is working to help HEIs to manage their Erasmus+ student mobility administration more efficiently and securely online.

More Information [HERE](#).

Updating the Inter-institutional agreement EWP API (Version 7)

The update aligns the EWP Network with the new [Erasmus+ template for inter-institutional agreements](#), published in early 2023, and enables additional functionality and technical updates. The changes, decided through the EWP Governance, aim to enforce clearer data standards, and improve interoperability and usefulness for colleagues in higher education institutions (HEIs).

ERASMUS+ EUROPEAN UNIVERSITIES CALL

- This Erasmus+ call for proposals comes with a total budget of €189,2 million.
- It runs from 3 October 2023 to 6 February 2024.

The call will allow the European Universities initiative to expand to at least 60 European Universities alliances with more than 500 universities by 2024.

It is delivering on one of the flagship initiatives of the [European strategy for universities](#) [pdf].

About the Call and how to apply, click [HERE](#).

GREEN ROOFS

PROJECT ACTIVITIES

The Green Roofs Technician Training project, aims to develop an innovative training course, methodology and a new, multidisciplinary occupational profile, specialized in green roofs. The partnership is currently working on the first project result; the Training Course and Platform Development.

The project results are:

1. Green Roofs Training Course and Platform Development
2. Green Roofs Trainers' Handbook
3. Guidelines for Green Roofs Training

The first result encompasses two components:

- (1) A training course on Green Roofs and
- (2) An eLearning environment.

The course will train a new, multidisciplinary professional profile, specialized in rooftop farming and gardening, what we call a Green Roof Technician.

ECOVEM at SEMICON Conference in Munich (15 November 2023)

The SEMICON Conference will be on the 15th of November 2023 in Munich, Germany, with the subject: "Cultivating the Workforce of Tomorrow". It will address pressing industry issues, such as the global talent shortage, and the crucial need to develop the industry leaders of tomorrow alongside onboarding new talent.

Microelectronics is an essential component of virtually all aspects of our daily lives and chips are strategic assets for key industrial value chains in Europe. With the European Chips Act, the EU wants to address semiconductor shortages and strengthen Europe's technological leadership. One of the key objectives of the act is to address the acute skills shortage, attract new talent, and support the emergence of a skilled workforce in the EU.

STEAME ACADEMY 1ST PHYSICAL PROJECT MEETING IN KRAKOW

The highlights from the first day of the STEAME ACADEMY project kick-off meeting in beautiful Krakow, Poland. The consortium came together for an inspiring and productive discussion to empower educators in acquiring competence in STEAME activities.

The items highlighting the first day were about:

- Progress and Next Steps
- STEAME Teacher Facilitators Learning Modules/Workshops
- Quality Assurance and Evaluation
- Impact and Dissemination

On the second day the consortium was divided into two working groups:

Working group 1: worked on the preparation of the structure of the upcoming workshop and round table set to take place in Porto, Portugal in April 2024. An exciting event aiming to foster innovation and collaboration among STEAME educators and experts.

Working group 2: discussed the design structure of the European Observatory Platform, the cornerstone of the project for sharing knowledge and insight across borders.
