GENERAL NEWS

ERASMUS+ MOBILITY BAROMETER

Last chance to contribute to the ERASMUS+ Mobility Barometer Survey measuring the 2022-2023 Academic year. The survey is organized by the EAEC in cooperation with the European Commission. All HE Institutions participating in the ERASMUS+ Mobility Programme are encouraged to respond to the survey. Respond for a chance to **WIN A FREE REGISTRATION** for ERACON 2024 in Porto, Portugal, valued at 500€! Submit your reply by end of February 2024, [HERE](#).

ERASMUS WITHOUT PAPER: REFLECTING ON 2023, SETTING 2024 PRIORITIES

The European Student Card initiative, with the [Erasmus Without Paper \(EWP\) network](#) as a major building block, aims to make student mobility as easy and as seamless as possible.

While technical interoperability issues were addressed throughout 2023, the challenges related to institutional strategies and process revisions came back into focus. Successful digital transformation requires joint reflection, a shared responsibility to act and robust support to the sector to ensure that no institution is left behind.

GET SUPPORT: If your HE institution needs support to start exchanging digital learning agreements in 2024, check out the [support materials and services](#) available on the ESCI portal.

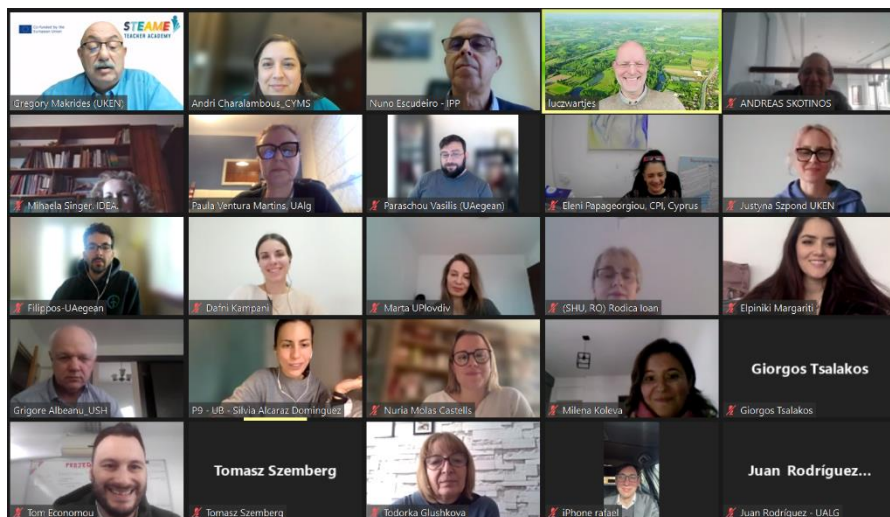

Representatives from various HEIs across Europe, connected to the EWP network through various systems, attended the meeting.

Find out more information, [HERE](#) and [HERE](#).

PAST EVENTS

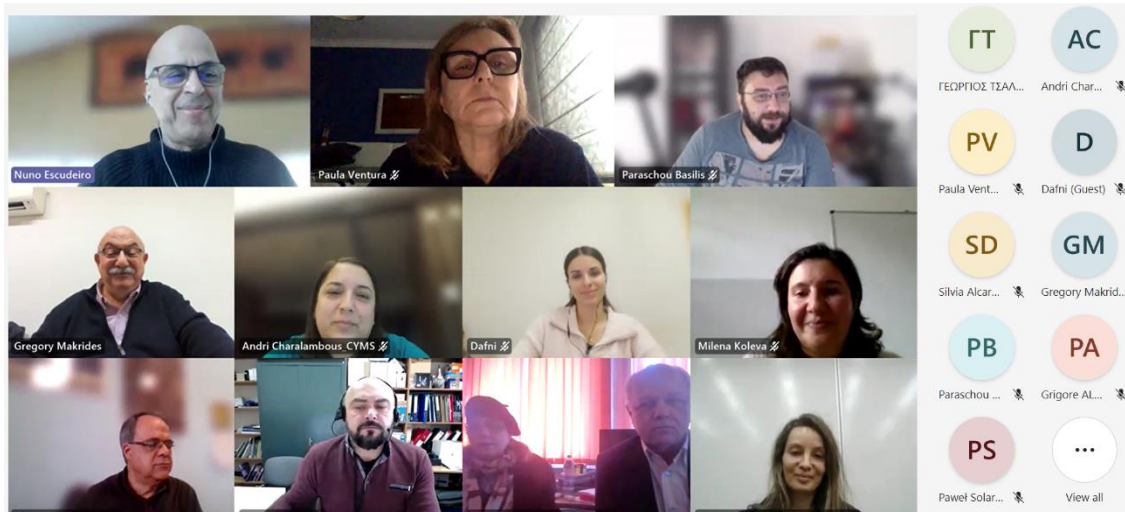

January 22, 2024 – CONSORTIUM THIRD ONLINE MEETING

On January 22, 2024, the STEAME ACADEMY consortium had an online meeting to discuss the progress of the project. During the first six months the consortium successfully completed 5 deliverables, including the Learning Outcomes Set! Currently the focus is on finalizing the Competence Framework and working on the first set of Learning and Creativity Plans. Specialized Modules are being developed for Service Teachers and Student Teachers eager to enhance their skillset.

JANUARY 30, 2024 – CONSORTIUM DISSEMINATION ONLINE MEETING

On January 30th, 2024, the STEAME ACADEMY consortium had an online meeting to discuss the progress of the project's dissemination. After the first six months the consortium members reviewed the current standing of impact and dissemination, analyzed progression of KPI and reviewed how partners had implemented former recommendations and whether they are being effective.

EU PROJECTS

GREEN ROOFS Technician Training Programme

The GREEN ROOFS project is developing a new specialised profession - the green roof technician. This multidisciplinary professional will combine engineering, technical, horticultural and social skills. The green roof technician will be an agent of positive change, shaping urban centres in harmony with nature. Their role will be key in the design, assessment, planning and implementation of green roof solutions.

Until the end of April 2024, we expect 5 learning snack videos to introduce 5 thematic content modules. The new video clip enables the understanding of the topic and provides some pedagogical and andragogic methods used for this new qualification profile with students.

Stay updated with the latest news on our [Facebook](#) and [LinkedIn](#) pages.

Find out more information about the project on our official website, www.green-roofs.eu

NEW EAEC ERASMUS+ PROJECT: U.BI.TEACH

EAEC participates in a NEW project with the subject “U.BI.TEACH”. It will promote a “New Methodology on Urban Biodiversity Teaching” and the Skills to adopt New Learning Approaches in HEs, increasing engagement in science and modernizing the curricula.

The project will promote a new HE system on urban biodiversity to provide a new methodology on urban biodiversity teaching and the skills to adopt new learning approaches in HE, increasing engagement in science and modernizing HE curricula.
